Wesleyan’s unique Master’s of Education program invites practicing classroom teachers who believe in the power of authentic learning, who desire a shift from mundane educational trends, and who wish to become active inquirers to join us in a journey of self discovery, organic learning experiences, and active research around timeless and proven classroom practices.

AS A TEACHER
DO YOU BELIEVE IN...

- The classroom as a community of inquiry?
- The power of play and creativity?
- The importance of interacting with the natural world?
- Building literacy through oral language skills?
- The benefits of integration of content across the curriculum?

If you do, and are frustrated with skill and drill and teaching to the test, then the redesigned MEd program at Wesleyan College is the perfect choice for you!

CHECK IT OUT...
