During an emergency, immediate and appropriate action is required of every member of the Wesleyan Community in order to prevent harm to others and ourselves. To ensure that an effective response occurs, everyone on campus will need to be familiar with the emergency guidelines contained in this document.

As a member of the campus community, you are instructed to follow the guidelines below. Simultaneously, other offices on campus will be performing separate emergency duties to help control the situation. The Office of Campus Police will be trying to contain the emergency if possible, notifying Macon Police, Fire Department, Georgia Emergency Management Agency, or other emergency assistance if needed. Physical Plant will be shutting down systems as necessary or delivering equipment needed to assist with the emergency. The Emergency Response Team will be communicating either by phone, e-mail, or in an emergency headquarters-meeting place (dependent upon the type of emergency) to oversee response by the resources available. Dependent upon the needs of the moment, other departments may be responding by doing things such as bringing phone service back or cleaning up/preventing a chemical spill, etc.

Being familiar with the enclosed guidelines before an emergency occurs will greatly enhance your safety during a crisis by ensuring your appropriate and rapid response. Such an automatic response by the Wesleyan Community will allow emergency personnel to respond directly to the crisis at hand, possibly resolving it more quickly and effectively than would otherwise be possible.

To make our campus a more secure location it is recommended that you keep your Wesleyan ID with you at all times.

**Fire:**

*Every time* a fire alarm goes off, *all* building occupants must exit the building, unless they have been notified prior to the event that it is not necessary to evacuate (as in testing of the alarms, etc.).

*Upon hearing the fire alarm:*

Everyone will exit the building quickly and in an orderly fashion, assisting those who may need assistance. Whenever possible, employees will help maintain an approximate head count of those from their offices, classrooms, or meeting place. Upon reaching the exterior gathering location, *see list below* employees will ensure that those under their jurisdiction or care do NOT re-enter the building until notified they may do so by emergency personnel. If there are injuries, Wesleyan College employees should notify Campus Police as soon as possible after reaching the exterior gathering location. If an employee or student suspects that someone remains in the building, Campus Police should be alerted to this fact immediately.

If you are unable to exit the building, go to the safest location of the building for fire (usually in a stairwell and identified as such by signage) and wait for emergency personnel to assist you in exiting the building.

*While exiting the building:*

Do not use elevators.

Attempt to maintain a calm and orderly exit.

Do not prop doors open.

**Active Shooter or Criminal on or near Campus:**

*Upon notification of a criminal on or near campus:*

The offices notified (via the voice over speaker system) will alert all classrooms and offices on their floor if safe to do so. Individuals should gather in an area/room of their building not easily accessed from the outside, preferably behind a locked door, staying away from windows and extinguishing lights. Do NOT exit a safe location until notified that the emergency is over. If, during the lockdown, a student or employee enters the building, they may be let into one of the locked rooms if the situation is such that it is safe to do so. Should a Wesleyan Community member enter a building during a lockdown and be unable to enter the locked rooms, he/she should find an unoccupied room, lock it if possible, and remain there until the situation is resolved.

**Unstable Person or Hostage Situation:**

*Upon notification of an unstable person or hostage situation on campus:*

Persons near the situation will quietly leave the area, notifying Campus Police and others nearby, if possible. If not, lock yourself in a room and stay low. Persons in the same room as the unstable person should remain calm and try to keep the unstable person as calm as possible. Should the situation escalate, other floors or offices may be notified to evacuate the building quietly. In this instance, building occupants should remain in the location indicated by Campus Police until further notice. The rest of campus will be notified not to enter the building in which the emergency is taking place.

If possible, have the following information ready when you call Campus Police to notify them of the situation:
- The number of unstable persons/hostage takers present
- Who is in the room/office/floor with the unstable person/hostage taker
- The actions/attitude of unstable person/hostage taker
- Exact last known location of unstable person/hostage taker

**Suspicious Parcel or Substance:**

The individual discovering the package or substance should immediately contact Campus Police. If you come in contact with the package wash hands for 30 seconds with soap and warm water. If Campus Police requires a building evacuation, all building occupants should remain outside until notified otherwise.

Persons who were in the immediate vicinity of the parcel/substance should remain separated from the rest of the occupants.

Campus Police/Emergency Personnel will possibly need to know:
- Who was in the room with the parcel/substance
- Who touched the parcel/substance
- Was the package opened and, if so, what happened when it was opened

**Earthquake:**

Should an earthquake occur, building occupants should get under a piece of sturdy furniture or in a doorway, if possible. Occupants should stay away from windows and glass as much as possible. If the building is stable, remain where you are until notified otherwise by Campus Police or Emergency Services Personnel as aftershocks will occur. Persons outside when an earthquake occurs should move to an open area away from electrical wires, tall structures, etc. After the first wave has passed, all people outside, or who judge their building to have become unstable, should go to the Campus Quad if there is a clear pathway there.

**Bomb or Bomb Threat:**

The person receiving the bomb threat should begin the evacuation process by telling his/her co-workers/students/visitors to quietly exit the building, with the evacuating employees notifying other offices/people as they exit, sending one person to report the situation to Campus Police as quickly as possible. Building occupants should exit the building as quickly and quietly as possible without touching anything that is not necessary to touch in order to get out of the building.
• All cell phones should be turned off.
• Elevators should not be used.

Occupants should then proceed to the exterior safety location (see fire safety locations), without reentering the building until told they may do so by Campus Police. No one may enter the building until emergency personnel have declared the building safe. Employees are responsible for ensuring that everyone in their areas evacuate the building and for notifying emergency personnel if anyone remains in the building.

**Chemical or Biological Terrorist Event:**
Enter the building nearest to you, proceeding to the center of the building. If possible, turn off heating/air conditioning unit. Remain inside until notified that the crisis is over by emergency personnel. Individuals who work or study at Wesleyan are encouraged to keep their Wesleyan College identification card with them at all times and to consult the Federal Emergency Management Agency website at www.fema.org to determine any additional steps they may wish to take for their own safety and comfort. These include:

• Making prior arrangements with friends and family for a meeting place in the event of an interruption in communications
• Storing non-perishable food and bottled water in an amount that will last three days to keep in your office/residence
• Keeping any medications or personal supplies you need on your person.

**Chemical Spill or Contamination:**
Upon notification that a chemical spill or contamination has occurred, evacuate the building, following any specific information given by emergency personnel (such as avoiding an exit that may be blocked by the spill) and assisting disabled persons as necessary. Go to the outdoor gathering location (listed under fire) and remain there until given further instructions by emergency personnel. If you are aware of anyone who is still in the building after the evacuation or been injured by the chemical, report it to the emergency personnel immediately.

**Protest:**
If a non-violent protest is occurring on or near campus, no action other than paying extra attention to your surroundings is necessary. If a protest on or near campus, starts to get violent, all persons nearby should enter a building and stay inside, away from windows, and remain inside until Macon Police and Campus Police has resolved the situation.

**Explosion or Aircraft Crash:**
In the event of an explosion or aircraft crash on campus, all persons in the vicinity should evacuate the buildings and area near the explosion as quickly as possible and go to an area on the opposite end of campus to avoid any possible toxic fumes released by the explosion. Notify emergency personnel of any injured or missing persons. Remain away from the site of the explosion until notified by emergency personnel that it is safe to return.

**Missing Person**
The term “missing student” is defined as any Wesleyan College student residing in a facility owned or operated by the College who is reported missing from her residence. Whenever a Wesleyan College student is believed missing, the College will initiate steps to locate her or to determine why the student has not been seen. Students are under no obligation to notify the College of plans to spend time away from their residences; however, if circumstances indicate that an investigation is warranted, concerned parties should contact Student Affairs or the Wesleyan Police Department. Upon notification, both Departments will make inquiries within the College and beyond.

If the College determines that the circumstances of the missing student require a police investigation, the Wesleyan Police or Student Affairs will notify the local police department. If the local police department determines that the student should be classified as a missing person, they will initiate their own investigation. The College will support their investigation by providing whatever technical support is
appropriate, including notices, photos, schedules, and any other information relevant to the search for the
missing student.

**Pandemic:**
In the case of a pandemic, the College will follow recommendations of the CDC and the local Health
Department. Communication to students, faculty and staff will be sent via e-mail, college website and the
text alert system.

**Evacuation:**
In the case of a building evacuation, please use the fire safety locations listed above. Building evacuations
are rare, but require full cooperation of all building occupants. Any notification of evacuation will be given
by a member of the Emergency Team or Campus Police.

**Miscellaneous Information:**
In instances such as widespread food poisoning, power outage or water loss on campus no formal general
response is required other than following the instructions given in the campus-wide notification.
